

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

46043-32

Date of Issuance:

10/29/19

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

**Suncoast Chemicals Company
 Algae Clear**

Name and Address of Registrant (include ZIP Code):

Suncoast Chemicals Company
 6385 150th Avenue North
 Clearwater, FL 33760

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Jacqueline Hardy, Product Manager, 34
 Regulatory Management Branch II
 Antimicrobials Division (7510P)

Date:

10/29/19

EPA Form 8570-6

2. You are required to comply with the data requirements described in the DCI identified below:

a. Busan 77 GDCI-069183-1581

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, “EPA Reg. No. 46043-32.”

4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 04/15/2019

If you have any questions, please contact Stacey Grigsby by phone at 703.305.6440, or via email at grigsby.stacey@epa.gov .

FIRST AID	
<u>IF IN EYES:</u>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
<u>IF ON SKIN OR CLOTHES:</u>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<u>IF INHALED:</u>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
<u>IF SWALLOWED:</u>	Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
<u>HOTLINE NUMBER</u>	
Have the product container or label with you when calling a poison control center [(1-800-222-1222)], or doctor, or going for treatment. [You may also contact [1-800-255-3924] for emergency treatment information.]	
<u>NOTE TO PHYSICIAN:</u>	
Probable mucosal damage may contraindicate the use of gastric lavage.	

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARD

Do not mix with acids, ammonia, oxidizers, bleach or other household chemicals.

ENVIRONMENTAL HAZARD

{For less than 5 gallons:} [This pesticide is toxic to fish, aquatic invertebrates, and clams.]

{For 5 gallons and larger:} [This pesticide is toxic to fish, aquatic invertebrates, and clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

STORAGE AND DISPOSAL

STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame.

CONTAINER HANDLING: IF EMPTY: Nonrefillable container. Do not reuse or refill this container. Place in trash [collection] or offer for recycling if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

{For containers greater than 5 gallons:}

PESTICIDE DISPOSAL: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

[The presence of algae in swimming pools [spas] is objectionable and can be difficult to remove, this product helps prevent the growth of chlorine-resistant algae, (such as mustard and “black” algae). It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.]

{Directions to be used for Pools or Spas}***{FOR POOLS}***

Pool Maintenance Tips: In order to ensure the maximum effectiveness of this product, super chlorinate with sufficient chlorinating product [brand name chlorinating product] to a chlorine level of 5 ppm. Remove all debris from the water by vacuuming or sweeping and filtering. In order to aid in the removal of the very fine particles resulting from the affected algae, use a water clarifier [brand name clarifier]. Always maintain pH at 7.2-7.6 and a free chlorine residual of 1-2 ppm using a reliable test kit.

[[Freshly Filled and/or Algae-Free Swimming Pools:] [Open/Close Pool:] [Pool Start-Up:]] Add 69 to 97 ounces of this product per 10,000 gallons of [pool] [spa] water. Add 24 to 48 ounces per 10,000 gallons weekly as a maintenance dose to prevent algae growth through the swimming season.]

[Visible Algae Growth: Add an initial dose of 97 to 128 ounces of this product per 10,000 gallons of [pool] [spa] water to rid the water of algae. Thereafter, add 24 to 48 ounces per 10,000 gallons weekly during the swimming season to prevent re-growth of algae.]

{FOR SPAS}

Spa Maintenance Tips: In order to ensure the maximum effectiveness of this product, super chlorinate with sufficient chlorinating product [brand name chlorinating product] to produce a chlorine reading of 5 to 10 ppm. Remove all debris from the water by sweeping and filtering or vacuuming. In order to aid in the removal of the very fine particles resulting from the affected algae, use a water clarifier [brand name clarifier]. Always maintain pH at 7.2-7.6 and a free chlorine residual of 2-3 ppm using a reliable test kit.

[[Freshly Filled and/or Algae-Free Spas:]] Add 3 to 5 ounces of this product per 500 gallons of [spa] water. Add 1 to 3 ounces weekly as a maintenance dose to prevent the growth of algae.]

[Visible Algae Growth: Add an initial dose of 5 to 8 ounces of this product per 500 gallons of [spa] water. Thereafter, add 1 to 3 ounces per 500 gallons weekly to prevent re-growth of algae.]

{Directions to be used for ornamental ponds/fountains}

Ornamental Pond/Fountain Treatment: Effectively controls many types of green or green water algae, string or hair algae and blanketweed in ponds that contain live plants. Controls existing algae and helps resolve additional algae blooms. Keeps ornamental ponds and water gardens clean & clear. Can be used in ponds with fish and plants.

Add 1 teaspoon (5 ml) of this product for every 50 gallons (190 L) of pond/fountain water. Thoroughly mix this product into pond/fountain by adding near the pump outflow, water-fall, or aeration device. This product can be pre-mixed in a bucket of pond/fountain water. Repeat dose every three days until algae is controlled. Be prepared to siphon out dead filamentous algae. Once algae growth is under control, add one dose every 5 days. Weekly doses of this product will control growth and reduce pond/fountain maintenance.

Caution: Do not use this product with crustaceans, including; crabs, shrimp, freshwater shrimp and freshwater lobsters.

***Warm Weather Caution:** Before using this product, make certain that the pond has vigorous aeration - i.e., a fountain, waterfall, or aeration device to avoid fish loss due to low oxygen levels. When algae is removed by the filter or settles to the bottom of the pond/fountain, the oxygen level may drop to a harmful level if adequate aeration is not provided. Therefore, when using this product during warm summer months, adequate aeration is required. Do not shut pond pumps and aeration devices off at night.

***Compatibility:** This product can be used in ponds with live plants. **Do not use with crustaceans, including crabs, shrimp and freshwater lobsters.**

For ornamental pond use only where all water is contained without any out flow.
